Satan Attacking!

Having talked with pastors both sides of the border, it seems that **Satan is fighting God's people** and God's churches more than ever. From December on, these men of God have expressed that they have never seen Satan fighting so hard against what the Lord is doing in His works! Me neither!

As we pray for you, we ask you to pray for us, to continually **resist** the "prince of the power of the air" as well as continue to minister here, in French Quebec!

Finally!

It's been a long time coming, but the Quebec government has **finally** lifted most of the COVID restrictions that have limited so many people from everyday activities. Most of the "sanitary measures" have been relaxed, and more to come!

This pandemic, and everything that governments have done, has closed many businesses, and some churches in Quebec and Canada. While our church has a solid base in many aspects, Satan never stops discouraging God's people (trying to divide His work). We ask you to pray for the Lord to restore the unity that we had before 2020; it would be very much appreciated!

Depression on the Rise!

Even among Christians, there is much depression. Please pray!

Building Sold!

The building where our English group has been meeting was sold; so, we are **searching** for another location. Your prayers would be appreciated, as smaller towns and villages don't always have renting options. We have two possibilities, but nothing is certain yet. Thank you so much for praying for this!

God Is Answering Prayer!

Whether our prayers or yours, we are seeing prayers answered.

* After his big fall removing snow from the roof of his building that he rents, **Steeve's** back and ribs are finally healed! **Thank you** for your prayers for him. It was rough.

***Placide** is doing better (shoulder, stomach), but your prayers would still be appreciated.

*We have **all recuperated** from our COVID experience. Your prayers were, and are, appreciated!

***France** is doing better; she's finding encouragement in more "spiritual" activity. While personal time with God is essential, doing things for God's work can reduce the discouragement that comes with living alone.

*While the Lord has provided the funds for some building repairs, we are **finding it difficult** to find the help because everyone is booked for 2022 (after the long time of governmental measures). These repairs would really help.

***Though** a missionary resigned last month, his post with his mission board **allows him** to promote Quebec as a mission field!
